DESCRIPTION

Commercial property with residence in a prime location – a unique combination of comfort and business space The property was thoroughly renovated in 2003, during which several important works were carried out. The electrical installation was brought up to code, the roof was completely renewed, aluminium windows were installed, and the property was equipped with 12 solar panels and a heat pump. These investments ensure added comfort and energy efficiency. On the ground floor, you will find the commercial space with an entrance on the street side. Upon entering, you step into the former retail area, offering numerous possibilities for commercial use, as well as an additional rear entrance. The use of a garage/parking space is negotiable. Also on the ground floor are additional workspaces. At the rear, there is a small kitchenette, a storage room, a separate toilet, a cold room, and a back entrance. On the mezzanine level, you will find a bedroom, a bathroom with a shower, bathtub, and washbasin, as well as a practical storage room at the rear. The first floor forms the main living area of the home, featuring a spacious living room with an open kitchen and dining area. On the second floor, there are two more full-sized bedrooms. The location along a well-connected main road ensures excellent accessibility and strong commercial visibility. Looking to sell your property?
